OUR NICHE OPPORTUNITY

Sports parents spend on average between \$30 billion and \$40 billion annually on children's sporting activities (source: The Aspen Institute).

Previously considered a 'summer only' sport, Baseball is now a year round sport for many Southern and South Western States.

For North East and Midwestern States, we see regular readership during the winter months when parents seek out training equipment, Christmas gifts, and plan for summer travel.

Our 2022 - 2024 Amazon Affiliate sales data shows that our top referred items include Baseball fashion (Baseball Mom tees, etc.), Baseball training gear, Baseball Parent Gear (chairs, stadium seats, tents) and Baseball gifts (jewelry, accessories).
